

# WOW! Science Camp Supply List 2017

Parents,

Please bring these supplies on Monday of your child's camp session. In the hallway outside your child's classroom, there will be labeled bags or boxes for you to sort the supplies. Thank you for helping us to make Science Camp a wonderful learning experience for your child! If you have any questions, e-mail us at [wowsciencecamp@sbcglobal.net](mailto:wowsciencecamp@sbcglobal.net) or call 281-297-5955.

**\*\*Please send your child in socks and tennis shoes. Our nature walks will be near wooded or grassy areas. Apply sunscreen before camp. Also, it is a good idea to send a plastic grocery bag every day for the materials your child will be bringing home.**

## Stupendous Scientists Supply List: (B)

1. 1 cardboard egg carton made for 12 eggs (Make sure it's cardboard, **not** Styrofoam!)
2. 3-4 pictures, any size, of various animals from magazines, old calendars, the internet, etc. These will be cut up and used for a project. Please put them in a Ziploc baggie.  
*\*Note: Children will choose from all of the pictures that are collected so your child may not end up using the ones he/she brought.*
3. 1 individual cup of packaged, pre-made gelatin (Jello-O), the non-refrigerated kind, any brand (like Kool-Aid or Hunt's) and any flavor. (It is usually on the baking goods aisle in the grocery.)
4. a CLEAR, empty, clean 16.9 ounce plastic water bottle with the lid; Please peel off the paper label. The bottle will be used for a project and does not need to be labeled with your child's name.
5. Optional: If you have any pony beads (the kind that are strung to make jewelry), please send them to us. We can always use extras. We can also use extra beading string if you have any. Please place them in a snack baggie.
6. A drink every day (juice or water bottle); Please label with your child's name.
7. Please send a medium bag of goldfish, Teddy Grahams, Ritz crackers, Graham crackers, or other snack (nothing with peanut butter) with your child to share with the class for snack time this week.
8. Optional: Your child may bring small animals like earthworms, safe insects, doodlebugs, pet snakes, lizards, pet rodents, etc., for show and tell---no dogs or cats!  
**Two of the habitats your child is studying are wetlands and woodlands so animals like baby turtles, frogs, snails, toads, crayfish, and tadpoles are especially appreciated. We especially need little water snails.** Label all containers with child's name. Please ask their teacher first at camp or e-mail Science Camp for permission if you are in doubt about a certain type of animal. [wowsciencecamp@sbcglobal.net](mailto:wowsciencecamp@sbcglobal.net)
